I have been planning with Samantha. I sent Samantha a contract and was supposed to hear from Clean Water Fund this week regarding any comments/questions about the contract language. I just wrote to her yesterday to check about this. We are holding November 28th as our launch and first training meeting in Downtown LA with Samantha and Joanne. But we can't have the meeting until the contract is executed, so plan to confirm Monday November 27th. Samantha may need more time to prepare training materials, such co-branded materials, so we may need to push the training to early December.

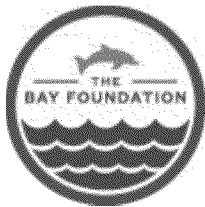

I also chatted with Samantha about the NOAA grant, which she is furiously working on as well. She's looking into a letter of support for our proposal. Since they are applying too, she needs to check if national offices are okay with it.

This grant proposal is due November 15, but we plan to submit November 13 in case Grants.gov has any technical issues.

We are staying in town for Thanksgiving as well!

Hi Grace,

Thanks for checking in and for sharing the city of Malibu's letter. I have been meaning to check in with you to see how things have progressed with the rethink disposable pilot project and MOU with Clean Water Fund. Can you give me an update?

Also, please remind me-when is your application to NOAA due?

We are staying in town for Thanksgiving and will celebrate at a neighbor's house. I'm really glad not to be traveling this year. What are your plans?

FYI I'm tentatively scheduled to visit LA December 13 – 15. However, since our continuing resolution (interim budget) ends December 8, I can't formally book travel until after that.

Best,

Erica

Hi Erica,

Hi! Hope you are well! Checking in about the letter of support. We set a deadline of Dec 1. See attached for something we drafted for the City of Malibu - it has the NOAA address, name of the project, etc.

Let me know if you have any questions. Thank you so much for your support.

What are your plans for Thanksgiving? Are you coming to LA?
